

## EXPORT CHASER TRAILER

### CHASER BASE TRAILER

The Chaser base trailer consists of the chassis made from 2X3 inch (50.8 mm X 76.2 mm) rectangular steel tube 1/8" (3.175 mm) thick. The tongue of the trailer has a 2 inch receiver tube welded into the chassis to enable the use of any coupler. There is a 2" receiver tube in the rear bumper for light accessories. The welded chassis is powder coated black. The trailer consists of the chassis, suspension, main box with lid, fenders, drop leg jack and LED lights. Fenders are bolted on and formed from 14 gauge zinc wipred steel.

### TRAILING ARM SUSPENSION

The suspension consists of two powder coated trailing arms, single unit air bags / shock absorbers.

#### DROP LEG JACK AND STEEL WHEEL.

The 5000 lbs rated front drop leg jack has a steel wheel.

#### MAIN BOX

The main cargo box the floor has rubber matting, and stainless steel tie downs.

The base trailer does not include tires and rims as most owners wish to match their tow vehicles tires, rims and bolt patterns.

**BASE CHASER TRAILER PRICE US \$ 5914.00**
